MEMORANDUM FOR ALL 103 WING PERSONNEL

FROM: 103 AW/CC

SUBJECT: 103 AW Environmental Management System (EMS) Policy Statement

1. The 103rd Airlift Wing and the entire Connecticut National Guard are committed to steadfast excellence, leadership, and stewardship in protecting the environment. The use of an EMS is one of our most effective and efficient tools in accomplishing this task. Our mission is to provide ready units, individuals, and equipment to support our communities, State, and the Nation. To demonstrate our leadership in preserving the environment, we will meet our mission requirements while providing sound environmental stewardship.
2. To sustain this policy, our EMS vision is to continually reduce waste through pollution prevention, and improve our environmental performance by minimizing our impacts on the manmade and natural environment, and maintain compliance with all federal, state, and local environmental regulations as well as other legal requirements applicable.
3. Our EMS vision has already led to major environmental improvements and will continue to improve and meet prioritized objectives and targets set by our cross functional team and suggestions from base personnel. This EMS Policy will be a living document that will be implemented and maintained by all 103rd personnel and available to the general public.

A handwritten signature in black ink, appearing to read "Frank N. Detorie".

FRANK N. DETORIE, Colonel, USAF
Commander, 103 Airlift Wing
